The Daily Poem

IF I CANNOT
It cannot be a sunbeam,
Shining full in the dark,
Lighting the earth with radiance,
I will be a star.

IF I CANNOT BE
a lighthouse,
Guiding men to their way,
I will be a tiny glow-worm,
Shining cheerily.

IF I CANNOT BE
a river,
Flowing on to the sea,
I will be a merry streamlet,
Hastening along.

IF I CANNOT BE
a singing-bird,
Making music sweet,
I will be a homely sparrow,
Chirping, "Tweet, tweet!"

The Weather

FORECAST:
All West—Mostly fair and warm today
and on Tuesday, but showers of thunder
storms will be possible.

The weather Saturday was fine and warm
but there were a few scattered showers in eastern Manitoba. Sunday was
warm and clear with a few scattered
showers in Alberta. Look showers in many
parts of the province. The weather for
today is mostly fair and warm with a few
showers this morning.

The World Issue In
The U. S. Elections.

Senator Harding is the Republican choice for the presidency of the United States, which the delegates seem to have been convinced means that he is to be the next chief executive of the United States. That they would win, whenever they selected as leader, and whenever the Democrats may select, appears to have gone at the convention as one of the things to be taken for granted.

For the Republicans did not gather in "Moosel" to lead them out of the wilderness. Rather with a buoyant assurance that they are going to march out anyway, and that the world is to be settled in business under his new tax scheme. But they are.

An Unreliable Report.

Sir Henry Drayton says some one has told him that the Republicans will not be able to count on business under his new tax scheme. But they are.

A Surprise.

It may be taken as established that the only really established in the country is the one that the other fellow has to pay.

CANADA AND CONSCRIPTION.

Burglary and Protection.

The Worcester Telegram.

Burglary insurance rates are going up, and the reason is so much the more that the insurance companies claim in their latest convention that they can't afford to pay the same rates as the pirates who, the burglar got. That is to say, and night shift that leaves no opportunity.

The Wonders of Nature.

The amateur gardener does not know whether to marvel most at the slow processes of nature as experienced in the growth of his bushes, or at the feverish energy with which the soil throws up a crop of pig-weeds.

Capable Spenders.

The new taxes are immune from criticism along one line. Nobody has argued that they will bring in more money than the minister can get away with. They have about four thousand names to the pay-roll since the armistice was signed.

Symptomatic Taxis, May Be.

The Toronto Telegram confesses to a conviction that free trade is the best way to follow.

It is the reason why some Canadian makers of farm implements rave every time free trade is mentioned. They just can't bear to think of the farmers being disappointed.

Looking for a Depression?

Perhaps the real reason behind the talk at Ottawa is a feeling that the world may, in a short time, come in handy next winter to keep the price of wheat.

And the prospect is that unless the party seems to be getting the momentum for the job.

Even William Jennings Bryan, whose special business in life is to keep the Democrats out of the Slough of Despond, would not really deny that the actually a fair chance that the Republicans may win.

World conditions in these peculiar times give outsiders the right to be more than usually interested in the coming Presidential contest. For the main issue in that contest is to be the League of Nations. By the covenant the Democrats are to stand or fall. It is the issue that has, and will have, influence is like a magnet in shaping the party policy at San Francisco. In any event the party that is tied up to the League, will be held responsible for it, and will stand or fall with it. It is an item still on the program or to excuse it as an aberration of the President that the party was power to power. Rather than split the party, the prospect that the Democrats will back the League covenant for ratification as it stands.

A Clear Issue.

The Republican convention threatened to "split" on the question of the League of Nations. The delegates to the house of delegates as to whether the United States should ratify the covenant with reservations or should refuse to ratify it at all. The delegates appear to be in a quandary, but the result is that the republicans will simply sign on the dotted line. As President Wilson has called upon the Democrats to stand squarely for adhesion to the League covenant, and it is the issue between the parties is clearly drawn.

If the Republicans win, the country will be bound, either with or without reservations. The Boot resolution, adopted by the convention on Friday, repudiated the League "root and branch" and proposed instead an international compact to which the League would be a "bumper" only fair.

The League is already a fact, on paper. But the conditions in Europe, and the fact that the navies and train future armistice as though there were no League, he speaks the helplessness of that supposed regulator of international relations.

It is as if the League had not existed. The prospect must be recognized that unless the Democrats win and ratify the peace treaty including the League clauses, the whole League scheme will collapse. The United States holds the deciding vote, and if it votes

negatively by electing the Republicans the bill fails to carry.

Those outside peoples will view the League as one which they have personal and vital concern. For two reasons. Civilized humanity is divided into two camps on the question of future relations between the nations. There is, in every country, like President Wilson, who believe not that the League could and would prevent war. There are also those in every country who do not believe in the League, and who believe that the League would not be able to preserve peace when the time comes that two nations want to fight; and that to depend upon the League would be to seek future peace by placing themselves under order of the League of Nations, to safeguard their country from invasion. Both camps will watch the combat between the League and the anti-League known antagonists, as a duel that is to settle the world issue of whether the nations are to seek peace by placing them selves under order of the League of Nations to be governed.

BORDEN RESENTS CHARGE MONEY USED IN LOBBY

Exception Taken to Accusation
Against Legislators Reported
From the Methodist Conference

Ottawa, June 14.—(Canadian Press)—At the opening of the session Monday, Prime Minister Borden regretted that his attention had been drawn to a despatch from Toronto, in which it was stated that the Methodist conference at Toronto, as saying that the money used in the lobby of the Canadian Parliament buildings in connection with the recent race track legislation was not used in the lobby, but that it was a foregone conclusion that the race track men would get what they wanted.

If the reverend gentleman was correct in his statement, then his statement, his statement would appear to constitute "the most courageous and most unscrupulous attack on himself, he had not seen a race track man in the lobby, and he was not one being here. It was the firm conviction that the statement made in the despatch was a lie, and the statements attributed to Rev. Dr. Ogden, were a reflection on parliament, a reflection on parliament of the most serious nature. Therefore, he had a right to be angry, and he had a right to protest against the members of the house and he proposed that a protest be made, and the protest action would be appropriately be taken in the matter.

John McCormack King, leader of the opposition, joined with the prime minister. He said that he expressed his greatest hope that the despatch was incorrect.

He said that he believed that the despatch certainly called for some action, and we would take into consideration the statement and see what we can do to pursue. Such remarks would have the effect of undermining the position of parliament.

John D. Borden, Minister of Finance, said that the despatch had been ignored. It was not necessary to do anything, as it was too much if we were called to answer before the bar of the house.

POWER STATION EMPLOYEES IN AUSTRALIA STRIKE

Factories of Melbourne Are Idle,
and Suburbs of City Are in
Darkness

Melbourne, Australia, June 14.—Engineers to the electric power stations to the number of 300 have struck, demanding a 25 per cent. increase in wages and arrangements of a permanent nature. All the power factories are idle. The streets and railway stations are lighted, but the electric power is not being used, being made to maintain a minimum of power to supply the needs of other institutions. The tram service will cease this evening to conserve the power used.

The engineers employed in the government power stations have struck, leaving thousands of cars to pass through the streets. The government officials are trying to come to an agreement with the situation. Indications are for a long strike, perhaps through the month of July, as it is felt that all the trade organizations will eventually be involved in the present movement.

**TORONTO EXPECTS
TO WALK AFTER RY.
EMPLOYEES MEET**

Toronto, June 14.—All Toronto expects to walk to Ry. on Wednesday as the result of a mass meeting of the engineers and technicians of the Canadian National Railways Company Tuesday night, when the award of a "merit" prize was to be taken up. The "award" is merely an unanimous resolution that the award be given to the company for its work in the city. The award was taken up on August 1, 1921, when the city will take up the award again.

Prize, Albert, Saxe, June 14.—Rev. J. A. Newbarn, bishop of Saskatchewan, left Monday for England, where he will attend the World Methodist Conference this month, and a conference in Geneva, Switzerland, in July, day.

Your Hard Working Heart

By Lee H. Smith, M. D.

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body, at the rate of seven miles an hour.

A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. No one suffers from colds or catarrh unless he has plenty of red blood corpuscles.

Catarrh is, in all its forms, a stagnation of the blood. Introduce pure red blood into the system, and health is assured. Dr. Pierce, over fifty years ago, gave to the public an alternative and blood tonic which he named his "Golden Medical Discovery." It is sold by all druggists the world over in tablets.

It is a tonic, alterative and nerve tonic, which contains no alcohol, and has the ingredients printed on the label. "Golden Medical Discovery" assists the digestive functions, assimilating the food and taking from it what is necessary for feeding the blood. Thus the blood takes on a new vigor and vitality. The heart is strengthened, and the body is made healthy. One feels strong, vigorous and full of "pep." Instead of weak, nervous and "paled out." Send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or send for a free medical booklet on any disease or free medical advice.

AROUND THE CITY

GETS SIX MONTHS IMPRISONMENT FOR NON-SUPPORT

Magistrate Primrose Inflicts a Heavy Sentence Upon M. E. Turner, Moose Jaw

Six months' imprisonment with hard labor in Fort Saskatchewan jail will be the sentence of M. E. Turner, of the man who will leave his wife in a helpless condition and who has been described as a "rascal." Magistrate Primrose to Mark Ernest Turner, late of Moose Jaw, that he would be held guilty on the charge of non-support, but would not say how long.

Leaving a dollar and a half on the table and his wife under the care of a maid, Turner left his home in the early morning, went to the police station in the parish, Turner deserted his wife in Moose Jaw, and when he was brought face to face in the police station when the magistrate asked him if he had come to answer the charge he laid against him.

Prisoners in the county jail have been provided with the necessities of life by the local boards of trade. In Western the Salvation Army and kind neighbors, testimony to the effect, was given.

The evidence of Dr. F. S. MacPherson, who was present at the opening of the session of his first visit to Mrs. Turner, but he was not there on the day of the trial, was that he visited the home and could find no provision for the wife and children. Turner, it was ever to the welfare board. The doctor has since been attending the children, and has given the capacity of that "Good Samaritan."

WHAT'S TO KNOW WHEN A. & G. W. RY. TO BE COMPLETED

"Would it be possible for you to find out what are the plans for the completion of the A. & G. Great Waterways railway this summer? The railway is to be completed to the Edmonton Board of Trade." Both the premier and Mr. MacPherson said that the railway would be completed this year. I think that the railway will be of great service for the north and the business interests of the city that are to get affected when that line is completed," adds Mr. Cornwall.

The premier and MacPherson expected will discuss the subject matter concerning the railway, but the date will depend upon a course of action. It is pointed out that the J. D. MacPherson and Mr. Cornwall are under contract with that Alberta and the premier has been asked to come to complete the line as far as Fort MacPherson.

MacPherson expressed the opinion that if the railway is completed to MacPherson, the business interests of the time of business done by Edmonton merchants will not increase country will be materially increased.

The present transportation difficulties will be overcome when the ship to ship in the north, but the bare necessities of life will be supplied by the greater bulk of goods required by trade, having to be shipped during the winter.

"The results in a great deal of capital will be obtained when the railway is completed in merchandising." Mr. Cornwall pointed out. With the completion of the railway to Fort MacPherson, a connection can be made with existing lines, and the railway can be turned over three or four times a day. It will be a constant trade being carried on between the north and Edmonton during the period of months of open water, the winter adds.
